## INDEPENDENT AUDITOR'S REPORT

To the Board of Education of the  
Hudson City School District:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the fiduciary funds of the Hudson City School District as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Hudson City School District's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the fiduciary fund information of the Hudson City School District, as of June 30, 2021, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and the schedule of changes in the total OPEB liability, the District's proportionate share of the net pension asset/liability, and District contributions on pages M1-M9 and 48-52 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Government Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Hudson City School District's basic financial statements as a whole. The other supplementary information is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the New York State Education Department. The other supplementary information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and accordingly, we do not express an opinion or provide any assurance on it.

## **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated November 2, 2021 on our consideration of the Hudson City School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Hudson City School District's internal control over financial reporting and compliance.

**HUDSON CITY SCHOOL DISTRICT**  
**Management's Discussion and Analysis (MD&A)**  
**June 30, 2021**

**INTRODUCTION**

The Hudson City School District offers readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2021. Please review it in conjunction with the District's financial statements and the accompanying notes to the financial statements.

**FINANCIAL HIGHLIGHTS**

- Net position decreased from (\$79,933,804) restated from prior year to (\$83,281,164) from last year primarily due to the continued changes in the OPEB obligation.
- As of the close of this fiscal year, the District's governmental funds reported combined fund balances of \$11,878,516, an increase of \$1,987,004 in comparison with the prior year.

**OVERVIEW OF THE FINANCIAL STATEMENTS**

This Management's Discussion and Analysis narrative (required supplemental information) is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components:

1. Districtwide Financial Statements
2. Fund Financial Statements
3. Notes to the Financial Statements

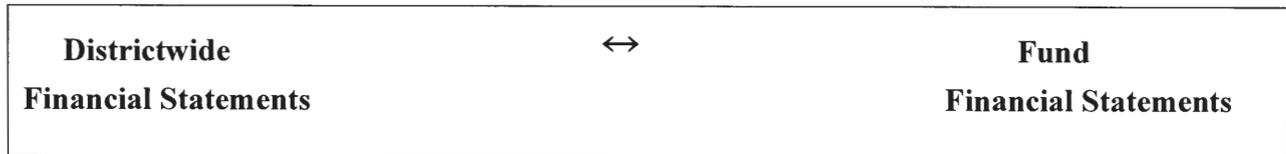

In addition to these statements, this report also includes required supplemental information and other supplemental information.

Our auditor has provided assurance in the independent auditor's report that the Basic Financial Statements are fairly stated. A different degree of assurance is being provided by the auditor regarding the supplemental information identified below. A user of this report should read the independent auditor's report carefully to ascertain the level of assurance being provided for each part in the financial statements.

**DISTRICTWIDE FINANCIAL STATEMENTS**

The district-wide financial statements are designed to provide readers with a broad overview of the District's finances in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases and decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in

cash flows in future fiscal periods (e.g. certain federal/state grants earned but not yet received, unused vacation/sick leave, and proceeds from Revenue Anticipation Notes and related interest).

All of the District's services are reported in the districtwide financial statements as *governmental activities*, including general support, instruction, pupil transportation, community services, and school lunch. Property taxes, state/federal aid, and investment earnings finance most of these activities. Additionally, all capital and debt financing activities are reported here.

## FUND FINANCIAL STATEMENTS

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds.

A fund is a grouping of related accounts, and is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. The District establishes other funds to control and manage money for particular purposes (such as repaying its long-term debts) or to show that it is properly using certain revenues (such as federal grants). All of the funds of the District can be divided into two categories; governmental funds, and fiduciary funds.

- **Governmental funds:** All of the District's services are reported in governmental funds. Governmental fund reporting focuses on showing how money flows into and out of funds, and the balances left at year-end that are available for spending. They are reported using the modified accrual method of accounting, which measures cash and all other financial assets that can readily be converted into cash. The governmental fund statements provide a detailed short-term view of the District's operations and the services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources available to be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, additional information at the bottom of the governmental funds statements explains the relationship (or differences) between them.
- **Fiduciary funds:** The District is the trustee, or *fiduciary*, for assets that belong to others, such as the scholarship fund and the student activities funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the district-wide financial statements because it cannot use these assets to finance its operations.

## FUND FINANCIAL ANALYSIS (DISTRICT'S FUNDS)

The District's governmental funds (as presented on the balance sheet) reported a combined Fund Balance of \$11,878,516, which is above last year's total of \$9,891,512. The schedule below indicates the fund balance and the total change in fund balance by fund type as of June 30, 2021 and 2020.

	<u>Fund Balance</u> <u>2021</u>	<u>Fund Balance</u> <u>2020</u>	<u>Variance</u> <u>Increase</u> <u>(Decrease)</u>

Totals	<u>\$ 48,399,775</u>	<u>\$ 49,190,261</u>	<u>\$ (790,486)</u>

**GENERAL FUND BUDGET INFORMATION**

The District's budget is prepared in accordance with New York State law and is based on the modified accrual basis of accounting, utilizing cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

The difference between the general fund's original budget and the final amended budget was \$1,145,880. This amount represents the increase for prior year encumbrances of \$279,515 and board approved use of reserves of \$866,365.

**CAPITAL ASSETS**

The District's capital assets (net of accumulated depreciation) as of June 30, 2021 are as follows:

<u>Asset Description</u>	<u>Amount</u>
Land	\$ 46,962
Construction in Progress	112,905
Buildings and Improvements	65,650,767
Machinery and Equipment	822,449
Vehicles	<u>35,267</u>
Total	<u>\$66,668,350</u>

The total decrease in the District's capital assets (net of accumulated depreciation) for the current fiscal year was \$1,558,410. The most significant change to the capital assets is attributable to the capital costs less the depreciation expense.

**DEBT**

The District had debt outstanding including serial bonds in the amounts of \$38,250,000 as of June 30, 2021, a decrease over the previous year of \$3,480,000. The debt outstanding for the year ended June 30, 2021 is summarized as follows:

<u>Debt Description</u>	<u>Outstanding Balance</u>
Bonds	<u>\$ 38,250,000</u>
Totals	<u>\$ 38,250,000</u>

The District has refunding bonds outstanding, the proceeds of which are in escrow to fund other previously existing debt. The refunding was done to lower the interest payments that are paid in the future.

Under current state statutes, the District's general obligation bonded debt issues are subject to a legal limitation based on a percentage of the total full value of real property. At June 30, 2021, the District's general obligation debt was less than its total debt limit. The District has a bond rating of A+.

## **FACTORS BEARING ON THE DISTRICT'S FUTURE**

At the time these financial statements were prepared and audited, the District was aware of existing circumstances that could significantly affect its financial health in the future. The District was awarded over 4 million dollars in federal funding through the CRRSA and ARP. The District is currently looking for input from the community on how to best to uses these funds in the years to come.

The property tax cap law provides a calculation for a tax levy limit, which caps the amount of revenues the District can raise through the levy of taxes. In addition to the financial restrictions of the tax cap calculation, the legislation poses a serious public relations challenge to the District. Due to the public perception of the law as being a "2% property tax cap", many members of the public interpret this as a law which caps their individual tax bills at 2%. Consequently, it has become the responsibility of the District to consistently combat the misconceptions of the law. The District's 2020-2021 property tax increase of 1.99% was less than the tax cap of 2.43%.

The District will continue to review existing educational program offerings, and review all services offered to determine if there are operational efficiencies that can be implemented. Areas such as special education and transportation have been focal points in the past in terms of cost cutting, and the District recognizes the burden that is placed in these areas because of some of the unfunded mandates originating from the State level. The District is in the process of updating the long range financial plan to ensure that it can maintain the funding levels necessary to support the District's mission and operations, while appropriately managing fund balance. To this end, the District plans to reduce liabilities whenever possible, and continue to fund existing reserves.

The District has adequate reserves to help us weather a financial crisis. We had some additional funds from the 20-21 school year due to lower-than-expected expenses. Transportation was low because we only transported students 4 days a week. Instructional salaries were lower than expected because we had a few staff retirements and we didn't need to replace them. The non-instructional staff worked fewer hours than expected because we were only in person 4 days a week. Telephone and electric costs were also lower because of us only using the building 4 days a week.

In conclusion, the Hudson City School District has committed itself to financial planning and fiscal accountability. The District will continue the essential long-range financial plan and will continue to strive to add to its fund balance to prepare for and to meet the challenges of the future.

## **CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT**

It is the intent of this report to provide the District's citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the funds it receives. HUDSON CITY SCHOOL DISTRICT  
NOTES TO FINANCIAL STATEMENTS  
-----

**I. Summary of Significant Accounting Policies**

The financial statements of the Hudson City School District have been prepared in conformity with generally accepted accounting principles (GAAP). Those principles are as prescribed by the Governmental Accounting Standards Board (GASB) which is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Significant accounting principles and policies utilized by the District are described below:

**A. Reporting Entity**

The Hudson City School District is governed by the laws of New York State. The District is an independent entity governed by an elected Board of Education consisting of 7 members. The President of the Board serves as the chief fiscal officer and the Superintendent is the chief executive officer. The Board is responsible for and controls all activities related to public school education within the District. Board members have authority to make decisions, power to appoint management, and primary accountability for all fiscal matters.

The reporting entity of the District is based upon criteria set forth by GASB Statement 14, The Financial Reporting Entity, as amended by GASB Statement 39, Component Units. The financial reporting entity consists of the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The accompanying financial statements present the activities of the District. The District is not a component unit of another reporting entity. The decision to include a potential component unit in the School District's reporting entity is based on several criteria including legal standing, fiscal dependency, and financial accountability. Based on the application of these criteria, the following is a brief review of certain entities included in the School District's reporting entity:

The Extraclassroom Activity Funds

The Extraclassroom Activity Funds of the Hudson City School District represent funds of the students of the School District. The Board of Education exercises general oversight of these funds. The Extraclassroom Activity Funds are independent of the School District with respect to its financial transactions and the designation of student management. Separate audited financial statements (cash basis) of the Extraclassroom Activity Funds are included in these financial statements. The District accounts for assets held as an agent for various student organizations in a custodial fund.

**I. Summary of Significant Accounting Policies (Continued)**

**B. Joint Venture**

The Hudson City School District is one of 22 component school districts in the Rensselaer-Columbia-Greene Board of Cooperative Educational Services (BOCES). A BOCES is a voluntary, cooperative association of school districts in a geographic area that share planning, services, and programs which provide educational and support activities.

BOCES are organized under Section 1950 of the Education Law. A BOCES Board is considered a corporate body. All BOCES property is held by the BOCES Board as a corporation (Section 1950(6)). In addition, BOCES Boards are considered municipal corporations to permit them to contract with other municipalities on a cooperative basis under Section 119-n(a) of the General Municipal Law.

A BOCES' budget is comprised of separate budgets for administrative, program, and capital costs. Each component school district's share of administrative and capital cost is determined by resident public school district enrollment as defined in Education Law, Section 1950(4)(b)(7). In addition, component districts pay tuition or a service fee for programs in which its students participate.

There is no authority or process by which a school district can terminate its status as a BOCES component. In addition, component school districts pay tuition or a service fee for programs in which their students participate. Members of a BOCES Board are nominated and elected by their component member boards in accordance with provisions of Section 1950 of the Education Law.

During the year ended June 30, 2021, the Hudson City School District was billed \$4,052,212 for BOCES administrative and program costs. The District's share of BOCES Aid amounted to \$964,043. Financial statements for the BOCES Aid are available from the BOCES administrative office.

**C. Basis of Presentation**

**1. Districtwide Statements**

The Districtwide Statement of Net Position and the Statement of Activities present financial information about the District's governmental activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. Governmental activities generally are financed through taxes,

**C. Basis of Presentation (Continued)**

**1. Districtwide Statements (Continued)**

State Aid, intergovernmental revenues, and other exchange and nonexchange transactions. Operating grants include operating-specific and discretionary (either operating or capital) grants, while the capital grants column reflects capital-specific grants.

The Statement of Net Position presents the financial position of the District at fiscal year-end. The Statement of Activities presents a comparison between program expenses and revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Program revenues include charges paid by the recipients of goods or services offered by the programs, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues. Indirect expenses, principally employee benefits, are allocated to functional areas in proportion to the payroll expended for those areas.

**2. Fund Financial Statements**

The fund financial statements provide information about the District's funds, including fiduciary funds. Separate statements for each fund category (governmental and fiduciary) are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column.

The District reports the following funds:

**a. Major Governmental Funds**

- (1) General Fund** - This is the District's primary operating fund. It accounts for all financial transactions that are not required to be accounted for in another fund.
- (2) Special Aid Fund** - These funds account for the proceeds of specific revenue sources, such as federal and state grants, that are legally restricted to expenditures for specified purposes and other activities whose funds are restricted as to use. These legal restrictions may be imposed either by governments that provide the funds, or by outside parties.

**2. Fund Financial Statements (Continued)**

**a. Major Governmental Funds (Continued)**

- (3) School Lunch Fund** – Used to account for transactions of the District’s lunch and breakfast programs.
- (4) Debt Service Fund** – This fund accounts for the accumulation of resources and the payment of principal and interest on long-term obligations for governmental activities.
- (5) Capital Projects Fund** – This fund is used to account for the financial resources used for acquisition, construction, or major repair of capital facilities.

**b. Fiduciary Funds**

Fiduciary activities are those in which the District acts as trustee or agent for resources that belong to others. These activities are not included in the districtwide financial statements, because their resources do not belong to the District, and are not available to be used. There are two classes of fiduciary funds:

- (1) Private Purpose Trust Funds** – These funds are used to account for trust arrangements in which principal and income benefits annual third party awards and scholarships for students. Established criteria govern the use of the funds and members of the District or representatives of the donors may serve on committees to determine who benefits.
- (2) Custodial Funds** – These funds are strictly custodial in nature and do not involve the measurement of results of operations. Assets are held by the District as agent for various student groups or extraclassroom activity funds.

**I. Summary of Significant Accounting Policies (Continued)**

**D. Measurement Focus and Basis of Accounting**

Accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The districtwide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenues from grants and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

The fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within 60 days after the end of the fiscal year.

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

**E. Cash and Investments**

The District's cash and cash equivalents consist of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from date of acquisition. New York State law governs the District's investment policies. Resources must be deposited in FDIC-insured commercial banks or trust companies located within the State. Permissible investments include obligations of the United States Treasury, United States Agencies, repurchase agreements and obligations of New York State or its localities. Collateral is required for demand and time deposits and certificates of deposit not covered by FDIC insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of the State and its municipalities and districts. Certain cash balances are restricted by various legal and contractual obligations, such as legal reserves and debt agreements.

HUDSON CITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

-----

**I. Summary of Significant Accounting Policies (Continued)**

**F. Property Taxes**

Real property taxes are levied annually by the Board of Education no later than September 1 and become a lien on July 1. Taxes are collected during the period July 15 to October 31.

The City and Counties in which the District is located enforce uncollected real property taxes. An amount representing all uncollected real property taxes must be transmitted by the City to the District within two years from the return of unpaid taxes to the city. Real property taxes receivable expected to be collected within 60 days of year-end, less similar amounts collected during this period in the preceding year are recognized as revenue. Otherwise, a deferred inflow of resources offset real property taxes receivable.

**G. Restricted Resources**

When an expense is incurred for purposes for which both restricted and unrestricted net assets are available, the District's policy concerning which to apply first varies with the intended use, and with the associated legal requirements, many of which are described elsewhere in these Notes to Financial Statements.

**H. Interfund Transactions**

The operations of the District include transactions between funds. These transactions may be temporary in nature, such as with interfund borrowings. The District typically loans resources between funds for the purpose of providing cash flow. These interfund receivables and payables are expected to be repaid within one year. Permanent transfers of funds include the transfer of expenditures and revenues to provide financing or other services.

In the districtwide statements, the amounts reported on the Statement of Net Position for interfund receivables and payables represent amounts due between different fund types (governmental activities and fiduciary funds). Eliminations have been made for all interfund receivables and payables between funds, with the exception of those due from or to the fiduciary funds.

The governmental funds report all interfund transactions as originally recorded. Interfund receivables and payables may be netted on the accompanying governmental funds balance sheet when it is the District's practice to settle these amounts at a net balance based upon the right of legal offset.

Refer to Note IV for a detailed disclosure by individual fund for interfund receivables, payables, expenditures and revenues activity.

**I. Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates and assumptions are made in a variety of areas, including computation of encumbrances, compensated absences, potential contingent liabilities and useful lives of long-lived assets.

**J. Receivables**

Accounts receivable are shown gross, with uncollectible amounts recognized under the direct write-off method. No allowance for uncollectible accounts has been provided since it is believed that such allowance would not be material.

**K. Inventories and Prepaid Items**

Inventories of food in the School Lunch Fund are recorded at cost on a first-in, first-out basis, or in the case of surplus food, at stated value that approximates market. Purchases of inventorable items in other funds are recorded as expenditures at the time of purchase and are considered immaterial in amount.

Prepaid items represent payments made by the District for which benefits extend beyond year-end. These payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the districtwide and fund financial statements. These items are reported as assets on the Statement of Net Position or balance sheet using the consumption method. Under the consumption method, a current asset for the prepaid amounts is recorded at the time of purchase and an expense/expenditure is reported in the year the goods or services are consumed.

A portion of fund balance has been classified as nonspendable to indicate that inventory does not constitute an available spendable resource.

**L. Other Assets/Restricted Assets**

Certain proceeds from serial bonds and bond anticipation notes, as well as resources set aside for their repayment are classified as restricted assets in the districtwide financial statements and their use is limited by applicable bond covenants.

-----

**I. Summary of Significant Accounting Policies (Continued)**

**L. Other Assets/Restricted Assets (Continued)**

In the districtwide financial statements, bond discounts and premiums, and any prepaid bond insurance costs are deferred and amortized over the life of the debt issue. Bond issuance costs are recognized as an expense in the period incurred.

**M. Capital Assets**

Capital assets are reflected in the districtwide financial statements. Capital assets are reported at historical cost or estimated historical costs, based on appraisals conducted by independent third-party professionals. Donated assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

Capital assets, except land, are depreciated on a straight-line basis over their estimated useful lives. Capitalization thresholds and estimated useful lives of capital assets reported in the districtwide statements are as follows:

	<u>Capitalization Threshold</u>	<u>Estimated Useful Life</u>
Site Improvements	\$ 500	20
Buildings and Improvements	\$ 500	15-50
Furniture and Equipment	\$ 500	5-15
Vehicles	\$ 500	8

**N. Compensated Absences**

Compensated absences consist of unpaid accumulated annual sick leave, vacation, and sabbatical time.

Sick leave eligibility and accumulation is specified in negotiated labor contracts, and in individual employment contracts. Upon retirement, resignation or death, employees may contractually receive a payment based on unused accumulated sick leave.

District employees are granted vacation in varying amounts, based primarily on length of service and service position. Some earned benefits may be forfeited if not taken within varying time periods.

**I. Summary of Significant Accounting Policies (Continued)**

**N. Compensated Absences (Continued)**

Consistent with GASB Statement 16, Accounting for Compensated Absences, the liability has been calculated using the vested method and an accrual for that liability is included in the Districtwide Financial Statements. The compensated absences liability is calculated based on the pay rates in effect at year end. In the fund statements only the amount of matured liabilities is accrued within the General Fund based upon expendable and available resources. These amounts are expensed on a pay-as-you-go basis.

**O. Accrued Liabilities and Long-Term Obligations**

Payables, accrued liabilities and long-term obligations are reported in the districtwide financial statements. In the governmental funds, payables and accrued liabilities are paid in a timely manner and in full from current financial resources.

Claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the funds financial statements only to the extent that they are due for payment in the current year. Bonds and other long-term obligations that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

Long-term obligations represent the District's future obligations or future economic outflows. The liabilities are reported as due in one year or due within more than one year in the Statement of Net Position.

**P. Deferred Outflows of Resources**

Deferred outflows of resources, in the Statement of Net Position, represents a consumption of net position that applies to a future reporting period and so will not be recognized as an outflow of resources (expense/expenditure) until that time. The District has three items that qualify for reporting in this category. The first item represents the effect of the net change in the District's proportion of the collective net pension asset or liability and the difference during the measurement period between the District's contributions and its proportionate share of total contributions to the pension systems not included in pension expense. The second item is the District's contributions to the pension systems (TRS and ERS Systems) and OPEB subsequent to the measurement date. The third item relates to OPEB reporting in the districtwide Statement of Net Position. This represents the effect of the net change in the actual and expected experience.

**I. Summary of Significant Accounting Policies (Continued)**

**Q. Deferred Inflows of Resources**

Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has four items that qualify for reporting in this category. The first item is related to pensions reported in the Districtwide Statement of Net Position. This represents the effect of net change in the District's proportion of the collective net pension liability and difference during the measurement periods between the District's contributions and its proportionate share of total contributions to the pension systems not included in pension expense, and the net difference between projected and actual earnings on pension plan investments. The second item is related to the premium received from advanced refunding which is amortized over the life of the bond issue. The third item is related to deferred real property taxes. The fourth item is related to OPEB reported in the Districtwide Statement of Net Position. This represents the effect of the net changes of assumptions or other inputs.

**R. Unearned Revenue**

Unearned revenues arise when resources are received by the District before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures or when charges for service monies are received in advance from payers prior to the services being rendered by the District. These amounts are recorded as liabilities in the financial statements. The liabilities are removed, and revenues are recognized in subsequent periods when the District has legal claim to the resources.

**S. Other Benefits**

Eligible District employees participate in the New York State Teachers' Retirement System or the New York State and Local Employees' Retirement System.

District employees may choose to participate in the District's elective deferred compensation plans established under Internal Revenue Code Sections 403(b) and 457.

In addition to providing pension benefits, the District provides postemployment health insurance coverage and survivor benefits to retired employees and their survivors in accordance with the provision of various employment contracts in effect at the time of retirement.

Substantially all of the District's employees may become eligible for these benefits if they reach normal retirement age while working for the District. Health care benefits are provided through plans whose premiums are based on the benefits paid during the year. The cost of providing post-retirement benefits is shared between the District and the retired employee. The District recognizes the cost of providing health insurance by recording its share of insurance premiums as an expenditure.

T. **Short-Term Debt**

The School District may issue Revenue and Tax Anticipation Notes in anticipation of receipt of revenues. These notes are recorded as a liability of the fund that will actually receive the proceeds from the issuance of the notes. The revenue anticipation and tax anticipation notes represent a liability that will be extinguished by the use of expendable, available resources of the fund.

The District may issue budget notes up to an amount not to exceed 5% of the amount of the annual budget during any fiscal year for expenditures for which there is an insufficient or no provision made in the annual budget. The budget note must be repaid no later than the close of the second fiscal year succeeding the year in which the note was issued.

The School District may issue Bond Anticipation Notes in anticipation of proceeds from the subsequent sale of bonds. These notes are recorded as a current liability of the fund that will actually receive the proceeds from the issuance of bonds. State law requires that bond anticipation notes issued for capital purposes be converted to long-term financing within five years after the original issue date.

U. **Equity Classifications**

1. **Districtwide Statements**

In the districtwide statements there are three classes of net position:

**Net investment in capital assets** – consists of net capital assets (cost less accumulated depreciation) reduced by outstanding balances of related debt obligations from the acquisition, construction or improvement of those assets.

**Restricted net position** – reports net position when constraints placed on the assets are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

**Unrestricted net position** – reports all other net position that do not meet the definition of the above two classifications and are deemed to be available for general use by the District.

2. **Fund Statements**

In the fund basis statements, there are five classifications of fund balance:

**Non-spendable** – includes amounts that cannot be spent because they are either not spendable form or legally or contractually required to be maintained intact. Non-spendable fund balance includes the inventory recorded in the School Lunch Fund of \$17,011.

**Restricted** – includes amounts with constraints placed on the use of resources either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation. All encumbrances of funds other than the General Fund are classified as restricted fund balance. The School District has established the following restricted fund balances:

1. **Encumbrances**

Encumbrance accounting, under which purchase orders, contracts and commitments of expenditures are recorded for budgetary control purposes in order to reserve applicable appropriations, is employed as a control in preventing over-expenditure of established appropriations. Open encumbrances are reported as restricted fund balance in all funds other than the General Fund, since they do not constitute expenditures or liabilities and will be honored through budget appropriations in the subsequent year.

2. **Workers' Compensation**

This reserve is used to pay for compensation benefits and other expenses authorized by Article 2 of the Workers' Compensation Law, and for payment of expenses of administering this self-insurance program. The reserve may be established by Board action, and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any fiscal year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal year's budget. The reserve is accounted for in the General Fund.

3. Employee Retirement Contributions

This reserve is used for future employee's retirement and teacher's retirement obligations. This reserve may be established by a majority vote of the Board, and is funded by budgetary appropriations and such other reserves and funds that may be legally appropriated.

4. Tax Reduction

This reserve is used to reduce real property taxes over a period of time. The reserve is created by resolution of the Board of Education and is used to reduce real property taxes for a period not to exceed ten years. The source of funds is the proceeds from the sale of real property, after being used for any other legally required purpose.

5. Employee Benefit Accrued Liability

This reserve is used to set aside funds for the payment of accrued employee benefits due an employee upon termination of the employee's service. This reserve may be established by a majority vote of the Board, and is funded by budgetary appropriations and such other reserves and funds that may be legally appropriated. This reserve is accounted for in the General Fund.

6. Repair

This reserve is used to pay the cost of repairs to capital improvements or equipment, which repairs are of a type not recurring annually. The Board of Education without voter approval may establish a repair reserve fund by a majority vote of its members. Voter approval is required to fund this reserve. Expenditures from this reserve may be made only after a public hearing has been held, except in emergency situations. If no hearing is held, the amount expended must be repaid to the reserve fund over the next two subsequent fiscal years. This reserve is accounted for in the General Fund.

**7. Unemployment Insurance**

This reserve is used to pay the cost of reimbursement to the State Unemployment Insurance Fund for payments made to claimants where the employer has elected to use the benefit reimbursement method. The reserve may be established by Board action and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any fiscal year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal year's budget. This reserve is accounted for in the General Fund.

Restricted fund balance includes the following:

General Fund		
Employee Retirement Contributions	\$	1,910,133
Teachers' Retirement Contributions		659,419
Unemployment Insurance		200,000
Repair		715,000
Tax Reduction		555,884
Workers' Compensation		2,429,561
Employee Benefit Accrued Liability		679,468
Debt Service Fund		857,861
Total restricted funds	\$	8,007,326

**Committed** – Includes amounts that can only be used for the specific purposes pursuant to constraints imposed by formal action of the School District's highest level of decision making, the Board of Education. The School District has no committed fund balances as of June 30, 2021.

**Assigned** – Includes amounts that are constrained by the School District's intent to be used for specific purposes, but are neither restricted nor committed. All encumbrances of the General Fund are classified as **Assigned Fund Balance** in the General Fund. Encumbrances reported in the General Fund amounted to \$897,404 and the assigned fund balance amounted to \$500,000.

**U. Equity Classifications (Continued)**

**2. Fund Statements (Continued)**

**Unassigned** – Includes all other General Fund amounts that do not meet the definition of the above four classifications and are deemed to be available for general use by the District and could report a surplus or deficit. In funds other than the general fund, the unassigned classification is used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted or assigned.

NYS Real Property Tax Law 1318 limits the amount of unexpended surplus funds a School District can retain to no more than 4% of the School District's budget for the General Fund for the ensuing fiscal year. Nonspendable and restricted fund balance of the General Fund are excluded from the 4% limitation. Amounts appropriated for the subsequent year and encumbrances are also excluded from the 4% limitation.

Order of Use of Fund Balance:

The District's policy is to apply expenditures against nonspendable fund balance, restricted fund balance, committed fund balance, assigned fund balance and unassigned fund balance at the end of the fiscal year. For all funds, nonspendable fund balances are determined first and then restricted fund balances for specific purposes are determined. Any remaining fund balance amounts for funds other than the General Fund are classified as restricted fund balance. In the General Fund, committed fund balance is determined next and then assigned. The remaining amounts are reported as unassigned. Assignments of fund balance cannot cause a negative unassigned fund balance.

**V. New Accounting Standards**

The District has adopted all current Statements of the Governmental Accounting Standards Board (GASB) that are applicable. At June 30, 2021, the District implemented the following new standards issued by GASB:

GASB has issued Statement 84, Fiduciary Activities, effective for the year ending June 30, 2021.

**W. Future Changes in Accounting Standards**

GASB has issued Statement 87, Leases, effective for the year ending June 30, 2022.

GASB has issued Statement 89, Accounting for Interest Cost Incurred Before the End of Construction Period, effective for the year ending June 30, 2022.

**W. Future Changes in Accounting Standards (Continued)**

GASB has issued Statement 91, Conduit Debt Obligations, effective for the year ending June 30, 2023.

GASB has issued Statement 92, Omnibus 2020, effective for the year ending June 30, 2022.

GASB has issued Statement 93, Replacement of Interbank Offered Rates, effective dates vary based on specific paragraphs of the statement from the year ending June 30, 2021, 2022 and 2023.

GASB has issued Statement 96, Subscription-based Information technology Arrangements, effective for the year ending June 30, 2023.

GASB has issued Statement 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal revenue Code Section 457 Deferred Compensation Plans, effective for the year ending June 30, 2022.

The school district will evaluate the impact that these pronouncements may have on its financial statements and will implement them as applicable and when material.

**II. Explanation of Certain Differences between Governmental Fund Statements and Districtwide Statements**

Due to differences in the measurement focus and basis of accounting used in the governmental fund statements and the districtwide statements, certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items. The differences result primarily from the economic focus of the Statement of Activities, compared with the current financial resources focus of the governmental funds.

1. Total Fund Balances of Governmental Funds vs. Net Position of Governmental Activities:

Total fund balances of the District's governmental funds differ from "net position" of governmental activities reported in the Statement of Net Position. This difference primarily results from the additional long-term economic focus of the Statement of Net Position versus the solely current financial resources focus of the governmental fund balance sheets.

2. Statement of Revenues, Expenditures, and Changes in Fund Balance vs. Statement of Activities:

Differences between the funds Statement of Revenues, Expenditures and Changes in Fund Balance and the Statement of Activities fall into one of three broad categories:

HUDSON CITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

II. Explanation of Certain Differences between Governmental Fund Statements and Districtwide Statements (Continued)

2. Statement of Revenues, Expenditures, and Changes in Fund Balance vs. Statement of Activities (Continued):

- a. Long-term revenue differences:  
Long-term revenue differences arise because governmental funds report revenues only when they are considered “available”, whereas the Statement of Activities reports revenues when earned. Differences in long-term expenses arise because governmental funds report on a modified accrual basis, whereas the accrual basis of accounting is used on the Statement of Activities.
- b. Capital related differences:  
Capital related differences include the difference between proceeds for the sale of capital assets reported on governmental fund statements and the gain or loss on the sale of assets as reported on the Statement of Activities, and the difference between recording an expenditure for the purchase of capital items in the governmental fund statements and depreciation expense on those items as recorded in the Statement of Activities.
- c. Long-term debt transaction differences:  
Long-term debt transaction differences occur because both interest and principal payments are recorded as expenditures in the governmental fund statements, whereas interest payments are recorded in the Statement of Activities as incurred, and principal payments are recorded as a reduction of liabilities in the Statement of Net Position.
- d. Pension differences:  
Pension differences occur as a result of changes in the District’s proportion of the collective net pension asset/liability and differences between the District’s contributions and its proportionate share of the total contributions to the pension systems.

The costs of building and acquiring capital assets (land, buildings, and equipment) financed from governmental funds are reported as expenditures in the year they are incurred, and the assets do not appear on the Balance Sheet. However, the Statement of Net Position includes those capital assets among the assets of the District as a whole, and their original costs are expensed annually of their useful lives.

Original cost of capital assets	\$98,765,933
Accumulated depreciation	<u>32,097,583</u>
Capital assets, net	<u>\$66,668,350</u>

HUDSON CITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

-----

**II. Explanation of Certain Differences between Governmental Fund Statements and Districtwide Statements (Continued)**

2. Statement of Revenues, Expenditures, and Changes in Fund Balance vs. Statement of Activities (Continued):

Long-term liabilities are reported in the Statement of Net Position, but not in the governmental funds, because they are not due and payable in the current period. Balances at year end were:

	2021	2020
Bonds payable	\$ 38,250,000	\$ 41,730,000
Compensated absences payable	\$ 763,922	\$ 824,996
OPEB obligations	\$ 136,196,243	\$ 131,354,901
Net pension liability-proportionate share	\$ 2,820,003	\$ 4,040,265

When the purchase or construction of capital assets is financed through governmental funds, the resources expended for those assets are reported as expenditures in the years they are incurred. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. Depreciation of \$1,598,929 was more than capital expenditures of \$40,520 in the current year.

Repayment of bond principal of \$3,480,000 is an expenditure in the governmental funds, but it reduces long-term liabilities in the Statement of Net Position and does not affect the Statement of Activities.

Interest on long-term debt and short-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the Statement of Activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. The interest reported in the Statement of Activities decreased by \$408,139.

### III. Cash and Investments

#### A. Deposits

The Hudson City School District's investment policies are governed by State statutes. The Hudson City School District's monies must be deposited in FDIC-insured commercial banks or trust companies located within the State. The Treasurer is authorized to use demand accounts and certificates of deposit. Permissible investments include obligations of the U.S. Treasury and U.S. Agencies, repurchase agreements, and obligations of New York State or its localities.

Collateral is required for demand and time deposits and certificates of deposit not covered by Federal Deposit Insurance. Obligations that may be pledged as collateral are: obligations of the United States and its agencies and obligations of the State and its municipalities and school districts.

Custodial credit risk is the risk that in an event of a bank failure, the District's deposits may not be returned to it. GASB directs that deposits be disclosed as exposed to custodial credit risk if they are not covered by depository insurance and the deposits are as follows:

- A. Uncollateralized
- B. Collateralized by securities held by the pledging financial institution, or
- C. Collateralized by securities held by the pledging financial institution's trust department or agent but not in the District's name.

Deposits and investments at year end were entirely covered by Federal Deposit Insurance or by collateral held by the School District's custodial bank in the School District's name.

#### B. Investment Pool

The Hudson City School District participates in a multi-municipal cooperation investment pool agreement pursuant to New York State General Municipal Law Article 5-G, Section 119-0, whereby it holds a portion of the investments in cooperation with other participants. At June 30, 2021, the School District held \$2,298,630 in investments consisting of various investments in securities issued by the United States and its agencies. The investments are highly liquid and considered to be cash equivalents. The investment pool is categorically exempt from the New York State collateralization requirements.

**VI. Pension Plans**

1. General Information

New York State and Local Employees' Retirement System (ERS) and the New York State Teachers' Retirement (TRS) (the Systems).

2. Plan Descriptions and Benefits Provided

**Teachers' Retirement System (TRS)**

The District participates in the New York State Teachers' Retirement System (TRS). This is a cost-sharing multiple-employer retirement system. The System provides retirement benefits as well as, death and disability benefits to plan members and beneficiaries as authorized by the Education Law and the Retirement and Social Security Law of the State of New York. The System is governed by a 10 member Board of Trustees. System benefits are established under New York State Law. Membership is mandatory and automatic for all full-time teachers, teaching assistants, guidance counselors and administrators employed in New York Public Schools and BOCES who elected to participate in TRS. Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. Additional information regarding the System, may be obtained by writing to the New York State Teachers' Retirement System, 10 Corporate Woods Drive, Albany, NY 12211-2395 or by referring to the NYSSTR Comprehensive Annual Financial report which can be found on the System's website at [www.nystrs.org](http://www.nystrs.org).

**Employees' Retirement System (ERS)**

The District participates in the New York State and Local Employees' Retirement System (ERS). This is a cost-sharing multiple-employer retirement system. The System provides retirement benefits as well as death and disability benefits. The net position of the System is held in the New York State Common Retirement Fund (the Fund), which was established to hold all net assets and record changes in plan net position allocated to the System. The Comptroller of the State of New York serves as the trustee of the Fund and is the administrative head of the System. System benefits are established under the provisions of the New York State Retirement and Social Security Law (RSSL). Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The District also participates in the Public Employees' Group Life Insurance Plan (GLIP), which provides death benefits in the form of life insurance. The System is included in the State's financial report as a pension trust fund. That report, including information with regard to benefits provided, may be found at [www.osc.state.ny.us/retire/publications/index.php](http://www.osc.state.ny.us/retire/publications/index.php) or obtained by writing to the New York State and Local Retirement System, 110 State Street, Albany, NY 12244.

**VI. Pension Plans (Continued)**

The Systems are noncontributory except for employees who joined after July 27, 1976, who contribute 3 percent of their salary for the first ten years of membership, and employees who joined on or after January 1, 2010 who generally contribute 3.0 to 3.5 percent of their salary for their entire length of service. In addition, employee contribution rates under ERS tier VI vary based on a sliding salary scale. For ERS, the Comptroller annually certifies the actuarially determined rates expressly used in computing the employers' contributions based on salaries paid during the Systems' fiscal year ending March 31. For TRS, contribution rates are established annually by the New York State Teachers' Retirement Board pursuant to Article 11 of the Education law.

Contributions for the current year and two preceding years were equal to 100 percent of the contributions required, and were as follows:

Contributions

	ERS	TRS
2021	\$668,326	\$1,633,811
2020	\$668,365	\$1,874,225

3. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the District reported the following (asset)/liability for its proportionate share of the net pension (asset)/liability for each of the Systems. The net pension (asset)/liability was measured as of March 31, 2021 for ERS and June 30, 2019 for TRS. The total pension (asset)/liability used to calculate the net pension (asset)/liability was determined by an actuarial valuation. The District's proportion of the net pension (asset)/liability was based on a projection of the District's long-term share of contributions to the Systems relative to the projected contributions of all participating members, actuarially determined. This information was provided by the ERS and TRS Systems in reports provided to the District.

4. Actuarial Assumptions

The total pension liability as of the measurement date was determined by using an actuarial valuation as noted in the table below, with update procedures used to roll forward the total pension liability to the measurement date. The actuarial valuations used the following actuarial assumptions:

Significant actuarial assumptions used in the valuations were as follows:

	<u>ERS</u>	<u>TRS</u>
Measurement date	March 31, 2021	June 30, 2020
Actuarial valuation date	April 1, 2020	June 30, 2019
Interest rate	5.9%	7.10%
Salary scale	4.40%	1.90%-4.72%
Decrement tables	April 1, 2015 - March 31, 2020 System's Experience	July 1, 2009 - June 30, 2014 System's Experience
Inflation rate	2.5%	2.20%

For ERS, annuitant mortality rates are based on April 1, 2015 – March 31, 2020 System’s experience with adjustments for mortality improvements based on MP-2020. For TRS, annuitant mortality rates are based on July 1, 2009 – June 30, 2014 System’s experience with adjustments for mortality improvements based on Society of Actuaries Scale MP-2019.

For ERS, the actuarial assumptions used in the April 1, 2020 valuation are based on the results of an actuarial experience study for the period April 1, 2015 – March 31, 2020. For TRS, the actuarial assumptions used in the June 30, 2019 valuation are based on the results of an actuarial experience study for the period July 1, 2009 – June 30, 2014.

**VI. Pension Plans (Continued)**

The long-term rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long term expected rate of return by weighting the expected future real rates of return by each the target asset allocation percentage and by adding expected inflation. Best estimates of the arithmetic real rates of return for each major asset class included in the target asset allocation are summarized below:

Measurement date	<u>ERS</u> March 31, 2021	<u>TRS</u> June 30, 2020
<u>Asset Type</u>	<u>%</u>	<u>%</u>
Domestic Equities	32%	33%
International Equities	15%	16%
Global equities	0%	4%
Private Equity	10%	8%
Real Estate Equity	9%	11%
Domestic fixed income securities	23%	16%
Global bonds	0%	2%
Private debt	4%	1%
Absolute return strategies	3%	0%
Real estate debt	0%	7%
Cash Equivalents	1%	1%
High yield fixed income securities	0%	1%
Real assets	3%	0%

5. Discount Rate

The discount rate used to calculate the total pension liability was 5.9 % for ERS and 7.10% for TRS. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially. Based upon the assumptions, the Systems' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

8. Payables to the Pension Plan

For ERS, employer contributions are paid annually based on the System's fiscal year which ends on March 31<sup>st</sup>. Accrued retirement contributions as of June 30, 2021 represent the projected employer contribution for the period of April 1, 2021 through June 30, 2021 based on paid ERS wages multiplied by the employer's contribution rate, by tier. Accrued retirement contributions as of June 30, 2021 amounted to \$186,855.

For TRS, employer and employee contributions for the fiscal year ended June 30, 2021 are paid to the System in September, October and November 2021 through a state aid intercept. Accrued retirement contributions as of June 30, 2021 represent employee and employer contributions for the fiscal year ended June 30, 2021 based on paid TRS wages multiplied by the employer's contribution rate, by tier and employee contributions for the fiscal year as reported to the TRS System. Accrued retirement contributions as of June 30, 2021 amounted to \$1,786,817.

**VIII. Postemployment (Health Insurance) Benefits**

**A. General Information about the OPEB Plan**

*Plan Description-* The District's defined benefit OPEB plan, provides OPEB for all permanent full-time general and public safety employees of the District. The plan is a single employer defined benefit OPEB plan administered by the District. Article 11 of the State Compiled Statutes grants the authority to establish and amend the benefit terms and financing requirements to the District Board. No assets are accumulated in a trust that meets the criteria in Paragraph 4 of Statement 75.

*Benefits Provided-* The District provides healthcare and life insurance benefits for retirees and their dependents. The benefit terms are dependent on which contract each employee falls under. The specifics of each contract are on file at the District offices and are available upon request.

*Employees Covered by Benefit Terms-* At June 30, 2021, the following employees were covered by the benefit terms:

Inactive members or beneficiaries currently receiving benefit payments	402
Inactive members entitled to but not yet receiving benefit payments	-

The District's total OPEB liability of \$136,196,243 was measured as of June 30, 2021 and was determined by an actuarial valuation as of that date.

*Actuarial Assumptions and Other Inputs-* The total OPEB liability in the June 30, 2021 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.60%
Salary Increases	2.60%, average, including inflation
Discount Rate	2.16%
Healthcare Cost Trend Rates	6.60% for 2020, decreasing to an ultimate rate of 4.10% over 56 years

The discount rate was based on the Bond Buyer General Obligation 20-year Municipal Bond Index.

Mortality rates were based on the April 1, 2010-March 31, 2015 NYSLRS experience, with adjustments for mortality improvements based on the Society of Actuaries Scale MP-2019.

The actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actuarial experience study for the period April 1, 2010-March 31, 2015.

**A. Risk Financing and Related Insurance**

1. General Information

The Hudson City School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past two years.

2. Grants

The School District has received grants, which are subject to audit by agencies of the State and Federal government. Such audits may result in disallowances and a request for a return of funds. Based on prior audits, the School District's administration believes disallowances, if any, will be immaterial.

3. Litigation

There are currently pending tax certiorari proceedings, the results of which could require the payments of future tax refunds by the School District if existing assessment rolls are modified based on the outcome of the litigation proceedings. However, the amount of these possible refunds cannot be determined at the present time.

**X. Tax Abatements**

The County of Columbia enters into various property tax abatement programs for the purpose of economic development. The School District property tax revenue was reduced approximately \$350,000. The District received payments in Lieu of Tax (PILOT) payment totaling \$198,386.

**A. Budgetary Procedures and Budgetary Accounting**

1. Budgets

The District administration prepares a proposed budget for approval by the Board of Education for the governmental funds for which legal (appropriated) budgets are adopted. The voters of the District approved the proposed appropriation budget for the General Fund.

Appropriations are adopted at the program line item level.

Appropriations established by adoption of the budget constitute a limitation on expenditures (and encumbrances), that may be incurred. Appropriations lapse at the fiscal year end unless expended or encumbered. Encumbrances will lapse if not expended in the subsequent year. Appropriations authorized for the current year are increased by the planned use of specific reserves, and budget amendments approved by the Board of Education as a result of selected new revenue sources not included in the original budget (When permitted by law). These supplemental appropriations may occur subject to legal restrictions, if the Board approves them because of a need that exists which was not determined at the time the budget was adopted.

Budgets are adopted annually on a basis consistent with GAAP. Appropriations authorized for the year are increased by the amount of encumbrances carried forward from the prior year.

Budgets are established and used for individual capital project funds expenditures as approved by a special referendum of the District's voters. The maximum project amount authorized is based primarily upon the cost of the project, plus any requirements for external borrowings, not annual appropriations. These budgets do not lapse and are carried over to subsequent fiscal years until the completion of the projects.

The General Fund Budget was increased to reflect the Board approved use of Reserves in the amount of \$866,365 and for the carryover encumbrances in the amount of \$279,515.

Special Aid Fund and School Lunch Fund have not been included because they do not have legally authorized budgets.

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Education of the  
Hudson City School District:

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the fiduciary funds of the Hudson City School District as of and for the year ended June 30, 2021, and the related notes to the financial statements which collectively comprise the District's basic financial statements and have issued our report thereon dated November 2, 2021.

### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Hudson City School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Hudson City School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Hudson City School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Hudson City School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards*, in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
