

ARP-ESSER Application: Part 2 - ARP ActIntroduction/Instructions - Summary & Background

Summary & Background

HUDSON CITY SD

101300010000

SUMMARY & BACKGROUND

On March 11, 2021, the President signed into law the American Rescue Plan Act of 2021 (ARP). ARP makes available \$122.8 billion nationally in a third round of Elementary and Secondary School Emergency Relief (ESSER) funds. New York State has been allocated nearly \$9 billion under the ARP Act's Elementary and Secondary School Emergency Relief (ESSER) Fund. The ARP Act requires that a minimum of \$8.09 billion (90 percent) be allocated to LEAs, including charter schools and Special Act School Districts that are LEAs. Pursuant to the terms of the ARP Act, LEA allocations have been calculated using the relative shares of grants awarded under Title I, Part A of the ESEA for the most recent federal fiscal year (2020). Each eligible LEA's ARP-ESSER allocation may be found [HERE](#).

Under section 2001(d)(2) of ARP Act of 2021, each State Educational Agency (SEA) must make ARP-ESSER allocations to LEAs in an expedited and timely manner and, to the extent practicable, not later than 60 days after the SEA receives its ARP-ESSER funds. The first portion of ARP-ESSER Funds was awarded to states on March 24, 2021, and 60 days from that day is May 24, 2021. The U.S. Department of Education (USDE) has taken the position that an SEA makes allocations when it authorizes the LEA to begin to obligate funds in accordance with its needs. To enable New York State's LEAs to begin to obligate ARP-ESSER funds by USDE's May 24, 2021 deadline, the application for LEA 90% base ARP-ESSER allocations is being administered by NYSED as a two-part application process:

ARP-ESSER Application – Part 1: The first step was for each LEA to submit signed assurances to NYSED by May 24, 2021. Upon receipt of signed LEA assurances, NYSED provided an email notice to the LEA of substantially approvable application status. Upon receipt of such notice, LEAs were able to begin obligating their allocation of 90% base ARP-ESSER funds.

ARP-ESSER Application – Part 2: The second step will be the submission of a full application and budget by the LEA. NYSED will issue a Grant Award Notice (GAN) to the LEA after the LEA's application is fully reviewed and approved by NYSED. Part 2 will address several of the plan-related assurances an LEA must provide in Part 1 of the application process.

The ARP Act requires LEAs to reserve at least 20% of their 90% ARP-ESSER allocation to address learning loss through the implementation of evidence-based interventions, such as summer learning or summer enrichment, extended day, comprehensive afterschool programs, or extended school year programs, and ensure that such interventions respond to students' academic, social, and emotional needs and address the disproportionate impact of the coronavirus on economically disadvantaged students, children with disabilities, English learners, racial and ethnic minorities, migrant students, students experiencing homelessness, and children and youth in foster care. For your information, the minimum 20% reservation for each LEA may be found [HERE](#).

Project Period

March 13, 2020 to September 30, 2024 to obligate funds. Funds must be fully liquidated by October 31, 2024.

Project Number

The project number stem for the program is:

ESSER: 5880 - 21 - XXXX

This number should be used on the appropriate FS-10 budget form.

Submission Deadline

Completed applications are due by **August 31, 2021** (with extensions by request), and will be reviewed on a rolling basis.

Please note that applications must be submitted and fully approved by no later than March 23, 2022. LEAs that have not been issued a Grant Award Notice by that time will be at risk of having their ARP-ESSER allocation returned to the United States Department of Education.

ARP-ESSER Application: Part 2 - ARP ActIntroduction/Instructions - Summary & Background

APPLICATION PROCESS FOR LEA ALLOCATIONS OF ARP-ESSER SEA RESERVE FUNDS

The federal ARP statute requires SEAs to reserve:

not less than 5 percent of the total amount of grant funds awarded to the State (\$449.4 million) to carry out activities to address the impact of lost instructional time by supporting the implementation of evidence-based interventions;

not less than 1 percent (\$89.9 million) to carry out the implementation of evidence-based summer enrichment programs; and

not less than 1 percent (\$89.9 million) to carry out the implementation of evidence-based comprehensive afterschool programs.

The 2021-22 enacted state budget directs that these required SEA set-asides be allocated as grants to specified school districts. Each eligible district's allocation of SEA reserve funds may be found [HERE](#). NYSED will inform school districts under separate cover when the application process for school district allocations of ARP-ESSER SEA set-aside funds has been published in the [SED Monitoring and Vendor Reporting System](#). This application is only for LEA 90% base ARP-ESSER allocations. LEAs should not apply for ARP ESSER SEA Reserve funds as part of this application.

ARP-ESSER Application: Part 2 - ARP ActIntroduction/Instructions - Submission Instructions

Submission Instructions

HUDSON CITY SD

101300010000

Directions for Submitting the Application:

The online application may only be submitted/certified by the chief school officer of the applicant LEA. The designated superintendent (public school LEAs), and the chief executive officer, board of trustees president, or school employee designated by the board of trustees (charter school LEAs) are the only administrators with the submit/certify rights necessary to successfully submit and certify a completed application for NYSED review.

LEAs ARE NOT REQUIRED to send hard copies of general application materials to the Department.

LEAs ARE REQUIRED to send signed originals and two hard copies of each FS-10 Budget Form to:

Office of ESSA-Funded Programs - Rm 320 EB

RE: ARP-ESSER Application – Part 2

New York State Education Department

89 Washington Avenue

Albany, NY 12234.

Deadline for Submitting the Applications:

The *ARP-ESSER Application – Part 2* is due by August 31, 2021.

ARP-ESSER LEA Base 90% Allocation - Plan Development and Dissemination

HUDSON CITY SD

101300010000

Title VIII of Division B of the CARES Act directs the Department to carry out the Education Stabilization Fund, of which the ARP ESSER funds are a part. Section 2001 of the ARP Act provides for the Department to make grants to each SEA from the ARP ESSER funds. An SEA must allocate at least 90 percent of its ARP ESSER grant funds to its LEAs (including charter schools that are LEAs) in the State in the same proportion that the LEAs received under part A of title I of the ESEA in Fiscal Year 2020, as required by section 2001(d)(1) of the ARP Act; and section 2001(e) of the ARP Act prescribes certain mandatory and permissive uses of LEAs' funds. Under 20 U.S.C. 1221e-3, the Secretary has the authority to promulgate rules governing the programs administered by the Department. Under this requirement, each LEA that receives ARP ESSER funds must develop, submit to the SEA on a reasonable timeline determined by the SEA, and make publicly available on the LEA's website, a plan for the LEA's use of ARP ESSER funds. The plan - known as the LEA ARP ESSER Plan - and any revisions to the plan submitted consistent with procedures established by the SEA, must include a description of key activities which are required below.

NYSED will consider each LEA's application for its base 90% ARP-ESSER allocation as meeting the USDE LEA ARP-ESSER use of funds plan requirement, provided the required elements of the plan are fully addressed in the LEA's application, combined with a budget, and then publicly posted after being developed with public input.

An LEA must engage in meaningful consultation with stakeholders and give the public an opportunity to provide input in the development of its plan. Specifically, an LEA must engage in meaningful consultation with students; families; school and district administrators (including special education administrators); and teachers, principals, school leaders, other educators, school staff, and their unions. Additionally, an LEA must engage in meaningful consultation with each of the following, to the extent present in or served by the LEA: Tribes; civil rights organizations (including disability rights organizations); and stakeholders representing the interests of children with disabilities, English learners, children experiencing homelessness, children in foster care, migratory students, children who are incarcerated, and other underserved students.

Each LEA's ARP ESSER plan must be in an understandable and uniform format and, to the extent practicable, written in a language that parents can understand (or, if not practicable, orally translated). Upon request by a parent with a disability, LEA plans must be provided in an alternative format accessible to the parent.

- 1. In the space provided below, please describe how the LEA meaningfully engaged a diverse and representative set of the applicable stakeholders in developing a plan to use these funds and implementing that plan.**

The Hudson City school district meaningfully engaged in a diverse and representative set of the applicable stakeholders in developing this plan. The superintendent held several stakeholder meetings to develop our safety plan and during these meetings, we had discussions about how the funds should be used. Also, we put out a district-wide survey looking for input from parents on how they would like to use these funds. We have an email account that was available for community stakeholders who could give us their thoughts. After all of these meaningful conversations we had with stakeholders we developed a list of the top mentioned items and that was the start of our application process. We will continue to include stakeholders by giving monthly updates at board meetings regarding the changes to the ARP application and also updating the FS-10 budget that will be on our website. We still use the email account that was available to community stakeholders to allow people to give their feedback on the implementation of the ARP funds.

- 2. In the space provided below, please provide the URL for the website(s) where the LEA ARP-ESSER Plan is/will be publicly posted. For an LEA that does not have a website, the LEA may identify an online platform (e.g. social media group or post, file sharing service, email listserv) that allows plans to be directly communicated to students, parents or legal guardians, school staff, and other stakeholders. As appropriate, the LEA should provide details about how the plan will be made available to people who request it.**

We will post all the necessary information when NYSED approves the plan on our website at www.hudsoncsd.org/ARPFunding/. We will also have paper copies of the plan in all of our buildings and will be provided upon request.

ARP-ESSER LEA Base 90% Allocation - Program Information

ARP-ESSER Application: Part 2 - ARP ActLEA ARP-ESSER Plan - ARP-ESSER Plan Development & Program Information

- 3. In the space provided below, please describe the extent to which and how the funds will be used to implement prevention and mitigation strategies that are, to the greatest extent practicable, consistent with the most recent CDC guidance on reopening schools, in order to continuously and safely open and operate schools for in-person learning.**

We will be using some of the funds to purchase additional PPE, disinfection wipes, and gloves. We will also review our HVAC system and make appropriate upgrades to it to make sure all our rooms have adequate airflow.

- 4. In the space provided below, please describe the data that the LEA will use to identify student needs and monitor student progress as a result of planned interventions and supports.**

The Hudson City School District uses the following to identify students' needs and monitor student progress. FastBridge is used K-8 to assess and progress monitor students in ELA and math. Scholastic Reading Inventory/Scholastic Math Inventory is used as another data point to place students into intervention groups. CKLA assessments will be used PK-6 and the Reading teachers will use the intervention materials with students as appropriate. Reading teachers are also using the materials from LETRS, 95% Group, and the Rewards Program to provide interventions and progress monitor students.

- 5. In the space provided below, please describe how the LEA will use the funds it reserves under section 2001(e)(1) - the required reserve of 20% of funds - to address the academic impact of lost instructional time through the implementation of evidence-based interventions, such as summer learning or summer enrichment, extended day, comprehensive afterschool programs, or extended school year.**

We will be addressing the academic impact of lost instructional time through the implementation of evidence-based interventions, during our K-12 summer school program, ALP night school, offering a late bus to allow kids to stay after for extra help, professional development in literacy, and The district's math coach has been working with teachers across K-5 to align the scope and sequence of the math curriculum with the Next Generation Math Standards. Through this process, they are also identifying the instructional resources that best meet the needs of the students in the classroom, as well as in an intervention setting. The district has selected curriculum and intervention materials that are aligned across PK-6 and support advancing the literacy skills of students as noted in research conducted on the science of reading. PK-6 teachers receive extensive, on-going PD to help them better utilize these new resources and to make sure everyone is versed in the science of reading research. Afterschool STEM program and additional materials to support our literacy programs. The Greenhouse Design Kit, Lighting, Temperature Control/Curtain System, and Irrigation and Water drainage. Growing plants in a greenhouse will teach students responsibility curiosity, imagination, and creativity. Showing them the mechanics and advantages of the greenhouse and making them take over the maintenance encompasses a broader scope of learning opportunities. This will also give more opportunities to our low-income families. We will be purchasing digital cameras, and Lighting to support our Media Literacy program. Media literacy education is intended to promote awareness of media influence and create an active stance towards both consuming and creating media. It allows students to access, critically evaluate and create an active stance towards both consuming and creating media. Through this program, students will improve their communication skills using various writing techniques that force students to collaborate, think critically, and do research. These skills are essential for college

ARP-ESSER Application: Part 2 - ARP Act

LEA ARP-ESSER Plan - ARP-ESSER Plan Development & Program Information

6. In the space provided below, please describe how the LEA will spend its remaining ARP ESSER funds consistent with section 2001(e)(2) - the allowable uses of funds - of the ARP Act.

We will make upgrades to our outdated IT infrastructure, upgrade our classroom displays, upgrade our building's HVAC system, and purchase new Walkies talkies to make it safer for all students. We will be working on our students social and emotional health with increase Psychologist and guidance counselors. The District also plans to hire an additional school nurse to support COVID-19 needs such as student/staff testing. This nurse would eventually replace a senior school nurse who plans to retire soon. Adding another AVID elective section for junior high school students so that more students in Grades 6-8 have additional opportunities to develop skills they need to be successful in college and/or careers. The AVID program (Advancement Via Individual Determination) places emphasis on growing skills in writing, critical thinking, teamwork, organization, and reading. HCSD is struggling this year to find enough reliable substitutes to step in when teachers and staff must be out of school. The District will put ARP funds toward hiring long-term substitutes that would be available every day to sub for teachers in any building and to continue to help with combating learning loss that was suffered last year. Making the elementary school playground wheelchair accessible so that all students may use the playground safely and also help with students' mental health. High 5 provides educational experiences for all ages that develop a sense of connection and community in a learning environment of discovery, challenge, and fun. As students return and have social and emotional issues we look to this program to help boost self-confidence and teamwork in our students to improve their emotional well-being. The District will use these funds to support its summer STEM program. This includes offsetting program costs for Camp Invention so students in low-income families can attend. We purchase an 18 passenger van to take small groups on field trips, get supplies to students on quarantine, get students home that have missed the bus and support Mckenny Vento students with transportation home. The Diversity Manager would support students and staff in addressing issues and opportunities of equity that impact student learning. This position is an essential component in ensuring that all students receive the resources they need so they can graduate and be successful after high school. The District would like to purchase online coding courses for elementary students through OYOClass. This program can be completed in or out of school. It would also provide professional development opportunities for educators. OYOClass is an NYSED CTLE approved sponsor. The DEI Manager would work closely with administrators, faculty, local governments, community organizations and other stakeholders to develop and implement programs for ensuring fair and equitable treatment of individuals in the school community.

7. In the space provided below, please describe how the LEA will ensure that the interventions it implements, including but not limited to the interventions implemented under section 2001(e)(1) - the required reserve of 20% of funds - to address the academic impact of lost instructional time, will respond to the academic, social, emotional, and mental health needs of all students, and particularly those students disproportionately impacted by the COVID-19 pandemic, including students from low-income families, students of color, English learners, children with disabilities, students experiencing homelessness, children in foster care, and migratory students.

We will be addressing the academic impact of lost instructional time through the implementation of evidence-based interventions during our K-12 summer school program, ALP night school, offering a late bus to allow kids to stay after for extra help, professional development in literacy, and The district's math coach has been working with teachers across K-5 to align the scope and sequence of the math curriculum with the Next Generation Math Standards. Through this process, they also identify the instructional resources that best meet the needs of the students in the classroom and an intervention setting. The district has selected curriculum and intervention materials that are aligned across PK-6 and support advancing students' literacy skills, as noted in research conducted on the science of reading. PK-6 teachers receive extensive, ongoing PD to help them better utilize these new resources and make sure everyone is versed in the science of reading research.

Students from low-income families, students of color, English learners, and students with disabilities were the groups that were most affected here at Hudson by the closures caused by Covid-19. Students were often shuffled around between families due to childcare issues and could not engage. The district followed up with families, did home visits weekly, and involved child protective services to no avail in some cases. Although families did not want their students exposed and in school, they could not engage their students in online instruction as well.

These programs will help these students get back on track academically, socially, and emotionally. It will give students new opportunities to succeed; in the past, some of these opportunities were unavailable, especially for low-income families, students of color, English learners, and students with disabilities.

ARP-ESSER Application: Part 2 - ARP ActLEA ARP-ESSER Plan - ARP-ESSER Return to In-Person Instruction

ARP-ESSER Return to In-Person Instruction

HUDSON CITY SD

101300010000

Section 2001(i)(1) of the ARP Act requires each LEA that receives ARP ESSER funds to develop and make publicly available on the LEA's website, not later than 30 days after receiving ARP ESSER funds, a plan for the safe return to in-person instruction and continuity of services for all schools, including those that have already returned to in-person instruction. Section 2001(i)(2) of the ARP Act further requires that the LEA seek public comment on the plan and take those comments into account in the development of the plan. Finally, section 2001(i)(3) of the ARP Act states that an LEA that developed a plan for the safe return to in-person instruction and continuity of services prior to the date of enactment of the ARP Act will be deemed to have met the requirement to develop a plan under section 2001(i)(1) as long as the plan meets the statutory requirements (i.e., is publicly available on the LEA's website and was developed after the LEA sought and took into account public comment).

The LEA's plan must include how it will maintain the health and safety of students, educators, and other school and LEA staff and a description of any policies it has adopted regarding each of the CDC's safety recommendations, including universal and correct wearing of masks; modifying facilities to allow for physical distancing (e.g., use of cohorts/podding); handwashing and respiratory etiquette; cleaning and maintaining healthy facilities, including improving ventilation; contact tracing in combination with isolation and quarantine in collaboration with the State, local, territorial, or the health departments of Native American Nations; diagnostic and screening testing; efforts to provide vaccinations to school communities; appropriate accommodations for children with disabilities with respect to health and safety policies; and coordination with State and local health officials.

The plan must describe how the LEA will ensure continuity of services, including but not limited to services to address students' academic needs and the social, emotional, mental health and other needs of students and staff, which may include student health and food services.

LEA plans must be in an understandable and uniform format and, to the extent practicable, written in a language that parents can understand (or, if not practicable, orally translated). Upon request by a parent with a disability, LEA plans must be provided in an alternative format accessible to the parent.

NYSED will permit previously developed LEA re-opening plans to satisfy the ARP statutory requirement for the safe return to in-person instruction and continuity of services. LEAs must make any necessary updates to existing plans to conform with the USDE requirements within 30 days of receipt of ARP-ESSER funds and to review (and revise if appropriate) plans every six months thereafter (until September 30, 2023).

- 1. In the space provided below, please provide the URL for the website(s) where the district's most current re-opening/return to in-person learning plan is/will be located. For an LEA that does not have a website, the LEA may identify an online platform (e.g. social media group or post, file sharing service, email listserv) that allows plans to be directly communicated to students, parents or legal guardians, school staff, and other stakeholders. As appropriate, the LEA should provide details about how the plan will be made available to people who request it.**

<https://www.hudsoncsd.org/reopening2021/>. Other than it is available on our website. We have paper copies available at all of our buildings upon request.

ARP-ESSER Application: Part 2 - ARP ActLEA ARP-ESSER Plan - ARP-ESSER Return to In-Person Instruction

2. **An LEA must periodically, but no less frequently than every six months (through September 30, 2023), review and, as appropriate, revise its plan. Consistent with section 2001(i)(2) of the ARP Act, which requires an LEA to seek public comment on the development of its plan, an LEA must seek public input and take such input into account in determining whether to revise its plan and, if it determines revisions are necessary, on the revisions it makes to its plan, i.e., the LEA must seek public input on whether to revise its plan and on any revisions to its plan no less frequently than every six months (taking into consideration the timing of significant changes to CDC guidance on reopening schools). If the LEA revises its plan, the revised plan must address each of the aspects of safety currently recommended by the CDC or, if the CDC has updated its safety recommendations at the time the LEA is revising its plan, each of the updated safety recommendations.**

In the space provided below, please describe how the LEA will review and regularly update (at least every six months through September 30, 2023) it's plan for in-person instruction, including a description of how public comment will be collected.

The District's 2021-22 operating plan aligned all of our efforts with the guidance received from federal, state, and local health officials and the New York State Education Department, Questar III BOCES, and Needham Risk Management Resource Group. This plan is subject to revision based on updated guidance and local public health conditions. As new information is released, HCSD may modify the plan accordingly. The District will review the plan quarterly to ensure it's updated with all of the changing guidance. The public will comment on the plan anytime through our designated email account. We will take this information to our monthly meeting with District leadership and consider adjusting our plan.

PLEASE NOTE - the FS-10 and Budget Narrative are used to provide NYSED with a specific itemization of proposed project expenditures and to provide NYSED and the Office of the State Comptroller with the necessary documentation upon which payments can be based. FS-10s with missing quantities or unit costs, or with terms such "*TBD*" or "*Varies*" cannot be accepted on the FS-10 or Budget Narrative forms.

Please note: LEAs that have been allocated funds from the mandated SEA-Level Reserves in the 2021-22 enacted state budget will apply for those funds via a separate application process. NYSED will inform school districts under separate cover when the application process for school district allocations of ARP-ESSER SEA set-aside funds has been published in the SED Monitoring and Vendor Reporting System. The sections below are only for LEA 90% base ARP-ESSER allocations. LEAs should not apply for ARP ESSER SEA Reserve funds as part of this application.

- 1. Please upload a completed and signed copy of the FS-10 Budget for the ARP-ESSER LEA Base 90% Funds.**

FS10_Budget_Excel ARP.xlsx
 FS10 Budget ARP Esser- Final-Signed.pdf

- 2. Please upload a completed copy of the Budget Narrative for the ARP-ESSER LEA Base 90% Funds.**

Budget_Narrative ARP-ESSER.docx

- 3. Please complete the following table by providing total proposed expenditures by budget code for funding in relation to the ARP-ESSER Application – Part 2. This information should match the Budget Summary page of the FS-10 budget form.**
