Conference/Program/Visitation Request

Trip Miles = Mileage from start place (home or building) to where you return at the end of the day (Add all segments of trip together.)

Commute Miles = Mileage from home to work and back home.

Total trip miles driven minus commute miles equals reimbursable miles.

1.) Complete Conference/Program Request Form (Page 1); attach a copy of the Conference Literature and a copy of directions for all mileage (commute and trip). Mileage will be paid as follows:

- Mileage should be based on the shortest route between the locations to be traveled provided by Google Maps.
- If leaving from and returning to your home on a contractual workday: Round trip mileage to and from conference location minus commute miles.
- If leaving from and returning to your building assignment on a contractual workday: Round trip mileage to and from conference location from your building.
- If you report to work; go to conference; and go home without returning to building assignment: Round trip mileage to and from conference location minus one way commute miles.
- If you report to a conference; go to work; and then go home: Round trip mileage to and from conference location minus one way commute miles.
- No mileage reimbursement is allowed between an employee's home and the employee's assigned work location. For job-related conferences which begin outside of the employee's normal working hours, if required by their Supervisor, including weekends, where the employees leave from the home and returns home, no deduction of commute miles is required.

Example 1: You live 10 miles from Hudson City School District.
Your round trip commute amount equals 20 miles.

You attend a full day conference in Albany, on a work day. You leave from your home and return to your home. Round trip from your house to Albany is 80 miles.

You are entitled to be reimbursed for 60 miles. (80 miles minus 20 commute miles).

Example 2: You live 15 miles from Hudson City School District in Kinderhook.
Your round trip commute amount equals 30 miles.

You attend a half day conference in Kingston (34 miles away from building), on a work day. You report to work in the morning; work a half day; drive to Kingston; and return to your home in Kinderhook - 49 miles total.

You are entitled to be reimbursed for 50 miles. (15 miles driven to work 34 miles driven to conference from work plus 49 miles from conference to return home minus 30 daily roundtrip commute miles).

OR

You live 20 miles from Hudson City School District in Rhinebeck.
Your round trip commute amount equals 40 miles.

You attend a half day conference in Kingston (34 miles away from building), on a work day. You report to work in the morning; work a half day; drive to Kingston; and return directly to your home in Rhinebeck.

You are entitled to be reimbursed for 28 miles. (20 miles driven to work plus 34 miles to conference from work to return home minus the regular 40 mile round trip daily commute.)

Example 3: You live 40 miles from Hudson City School District.
Your round trip commute amount equals 80 miles.

You attend a conference in Albany, which is 10 miles from your home on a work day. You leave from your home and return to your home. Round trip from your house is 20 miles.

You will not be entitled to any reimbursement, as the commute miles (80) is more than miles driven round trip to and from the conference (20).
